PRESS RELEASE

City of Westlake Village Premieres Video Newsletter Program

The City of Westlake Village is excited to announce the debut of its new Video Newsletter. This original program offers more in-depth coverage of important City news items. Hosted by Westlake Village City Manager Ray Taylor, the program features interviews with City staff, volunteers and other special guests. In addition, on-scene video and still shots of City programs and projects are featured in a collection of five to six minute segments. Each month a new Video Newsletter edition will be produced and broadcast on the City's government access channel, Channel 10 in Westlake Village, and will also be available to view on the City's website, www.wlv.org.

The first episode premiered on Westlake Village Channel 10 on Thursday, December 13 at 6:30 pm followed by an encore presentation at 6:30 pm on Friday. The December edition will also be shown at various times throughout the week on Channel 10. The episode featured a look back at 2012 complete with interviews of several staff members, a fire department official, and information on the proper way to dispose of

Christmas trees. For more information, or to view the Video Newsletter, log on to the City website at www.wlv.org.
